PORT OF  
**BARCELONA**

**GENERAL INFORMATION**

The Port of Barcelona has a 2000-year history and it is Spain's third-largest container port in volume and Europe's third most productive port in the container traffic. The port is divided into three zones: Port Vell (Old Port), the commercial/industrial port, and the logistics port (Barcelona Free Port).

The Barcelona industrial port is located to the South and comprises the Free Port, or Zona Franca, a tariff-free industrial park that has been developed within the Port of Barcelona.

MH Bland opened its Port Agency in Barcelona in 2016 and, as with all ports, we have built an experienced and well trained team of professionals able to provide the highest level of service expected by our clients, attending to all their needs where ever and whenever they are required.
